

## COLLEGE OF ENGINEERING & TECHNOLOGY

Department : Computer

Lecturer : Dr. Hesham El-Zouka

TA : Eng. Reham Ramadan

Course Title : CC421 - Microprocessors Systems

---

### Lab Assignment

**Write the following codes on the emulator:**

- Write an assembly program that counts the number of vowels 'a, i, e, o, and u' in the string 'Arab Academy for Science and Technology'.
- Compare between these two words '**Computer Engineering**' and '**computer engineering**' and display the following message depending on the result:
  - If they're equal, display "They are matching."
  - If they're not equal, display "Don't match"
- Find the maximum number in the following array:  
(20H - 30H - 40H - 40H - 80H - 100H - 10H)
- Write a program that scans a sentence ('The password is 1122595') and replaces every digit (0-9) with an asterisk (\*).

*Good Luck*
